# ERNCIP 2015 AND ONWARDS

ERNCIP high level strategic goals

- *Improve the protection of critical infrastructure in the EU through the harmonisation of testing of security solutions (EPCIP)*

- *Facilitate the development of a single EU market for security products.*
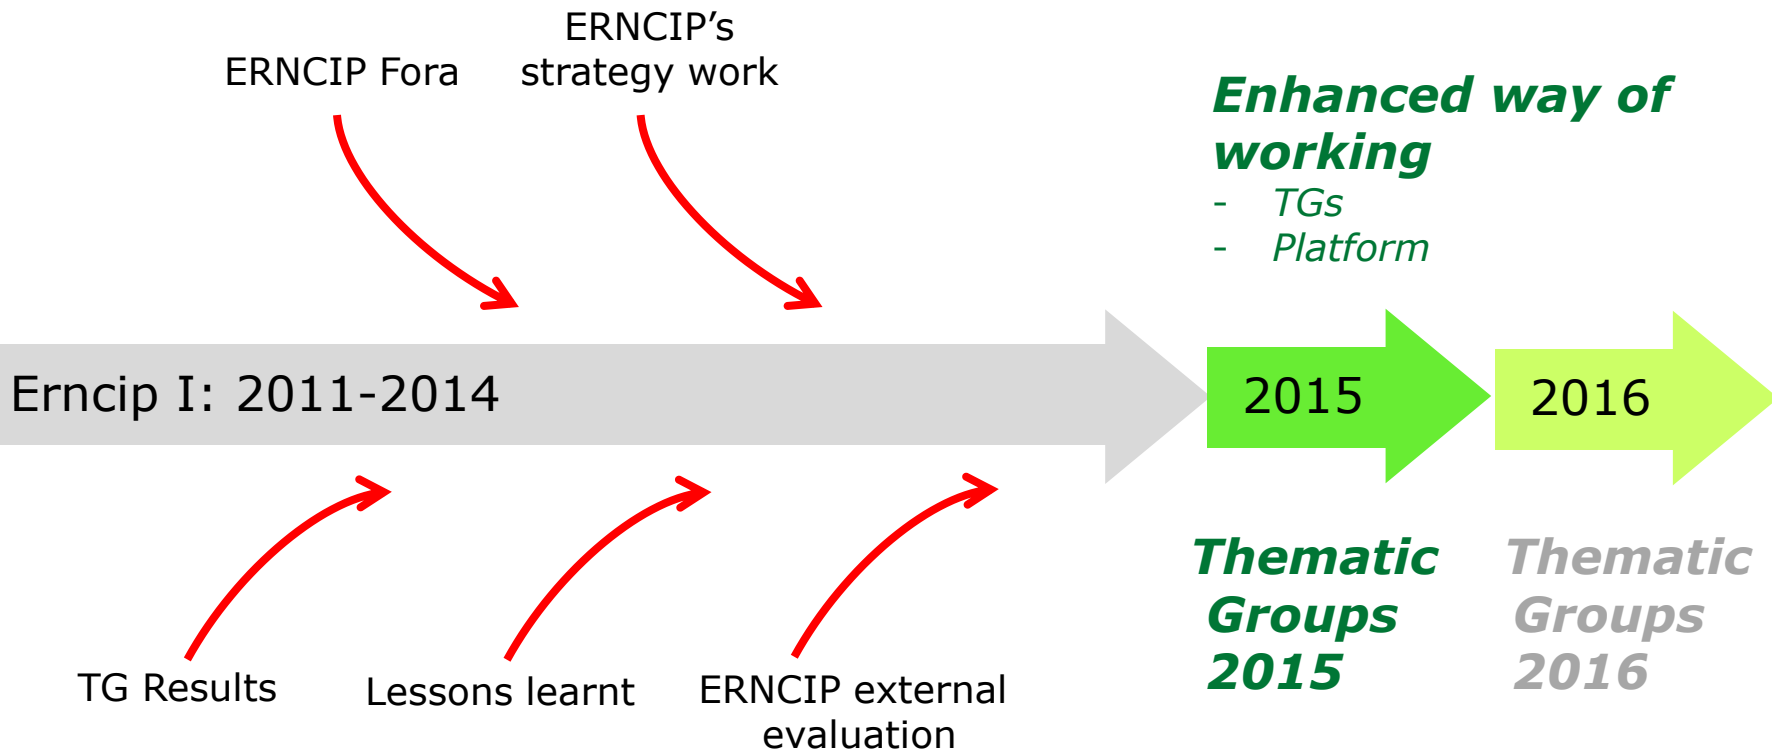

ERNCIP Core Activities will continue to be..

I. *Initiate and supervise Thematic Areas*
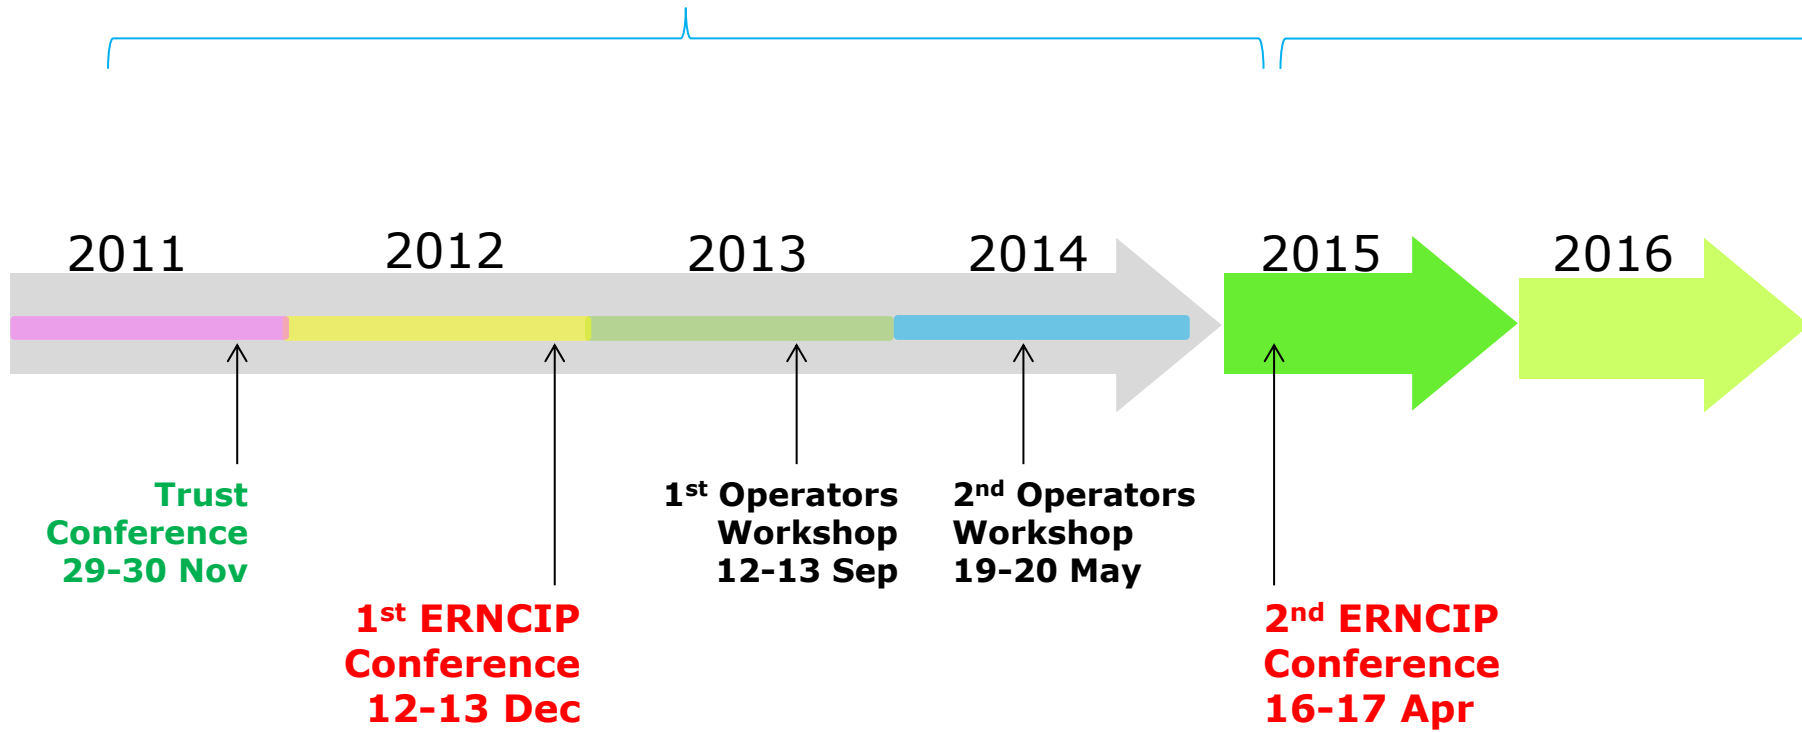

II. *Develop and Operate the ERNCIP Inventory*

An evolving strategy

Recommendations*

Possible new areas of change!

Out of the scope of ERNCIP

Already addressed (?)

"Bell's and whistles"
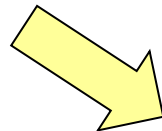

ERNCIP External Review

*Findings,
Gaps and
Recommendations*

Possible new areas of change!
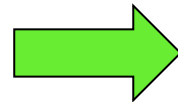

Out of the scope of ERNCIP

Already addressed (?)

- *Links to other CIP projects*

- *More involvement of std bodies like ISO, CEN and NIST*

- *More robust project management*

ERNCIP External Review

Findings,

Gaps and

Recommendations

Possible new areas of change!
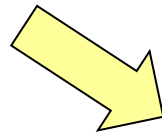

Out of the scope of ERNCIP

Already addressed (?)

- *Insufficient engag. of end-users*

- *Insufficient repres. by countries and sectors in TGs*

- *Relatively few search users in the Inventory*

An enhanced way of working

- Closer link to main policy initiatives

- More formal work programme process established based on scope agreed with DG

- More thorough preparation phase including appointment of coordinators&members, objectives, mapping other CIP projects

- Shorter cycles with clear deliverables/milestones

An enhanced way of working (2)

- Not too large thematic groups

- Closer cooperation with Standardisation Organisations like CEN, ETSI and NIST

- Development of advisory bodies and fora (e.g. Academic committee and operators workshops)

- ERNCIP platform development in terms of content and interactiveness
